PRIYA SHARMA
Data Scientist | Bengaluru
priya.sharma@example.com | +91 91234 56789 | github.com/priyasharma-ds

SUMMARY

Data scientist with 3 years of experience in machine learning, NLP and analytics. Experienced in turning
business questions into models and dashboards that drive decisions.

SKILLS

Python, SQL, R, Pandas, NumPy, scikit-learn, TensorFlow, PyTorch, Natural Language Processing, Hugging Face Transformers, LangChain, Power BI, Tableau, Statistics, Apache Spark, AWS, Git, Jupyter

EXPERIENCE

Data Scientist - InsightAxis Analytics | Aug 2021 - Present
- Built a customer churn prediction model with XGBoost and scikit-learn that improved retention campaigns by 18%.
- Developed an NLP pipeline using Hugging Face transformers to classify 50k support tickets per month with 91% accuracy.
- Created Power BI dashboards for leadership tracking KPIs across 6 business units.
- Deployed models as FastAPI services on AWS with Docker.

Data Analyst Intern - RetailMart | Jan 2021 - Jul 2021
- Analysed sales data with SQL and Pandas and identified pricing changes worth 2.3% margin uplift.

PROJECTS

Resume Screening with LLMs - Python, LangChain, Ollama, RAG: semantic matching of resumes to job descriptions.
Sales Forecasting - Prophet and Tableau for a 12-month demand forecast.

EDUCATION

M.Sc. Data Science, Christ University, 2019 - 2021
B.Sc. Statistics, St. Xavier's College, 2016 - 2019
